MARCS Graduates: Where are they now?

2003

Dr Doğu Erdener MA(Hons)
Thesis: The Role Of Visual Face Information And Orthography In L2 Acquisition
Lecturer, Psychology Program, Middle East Technical University, North Cyprus

Dr Michael Tyler PhD
Thesis: Orthography, Phoneme Awareness And The Measurement Of Vocal Response Times
Lecturer, School of Psychology, University of Western Sydney

2006

Sue Rossiter MA(Hons)
Thesis: Tinnitus And Cognition
Senior Child Development Officer, Blacktown City Council

Dr Brett Molesworth PhD
Thesis: Experiential Training And Risk Management Behaviour Amongst Pilots
Lecturer, Dept of Aviation, University of New South Wales

2007

Jessica Hartcher-O’Brien MA(Hons)
Thesis: Approaching The Underlying Mechanisms Of The Auditory Precedence Effect Using Masking Techniques
Doctoral student, Department of Experimental Psychology, University of Oxford

Dr Renee Glass PhD
Thesis: The Audience Response Tool (Art): The Impact Of Choreographic Intention, Information, And Dance Expertise On Psychological Reactions To Contemporary Dance
Consultant, PTG Global

2008

Dr Arman Abrahanyan PhD
Research Associate, School of Psychology, University of Sydney

Dr Barbara Schwahnhäuser PhD
Thesis: Lexical Tone Perception And Production. The Role Of Language And Musical Background
Postdoctoral Fellow, Institute of Learning and Brain Sciences (iLabs), University of Washington

Dr Doğu Erdener PhD
Thesis: Development Of Auditory-Visual Speech Perception In Young Children
Lecturer, Psychology Program, Middle East Technical University, North Cyprus
Dr Rikke Bundgaard-Nielsen PhD  
Thesis: The Role of L2 Vocabulary Expansion in the Perception and Production of Australian English Vowels by Adult Native Speakers of Japanese  
Postdoctoral Fellow, MARCS Labs, University of Western Sydney

Dr Lidija Krebs-Lazendic PhD  
Thesis: Early Vs. Late Serbian-English Bilinguals’ Responses To Australian English Vowels  
Postdoctoral Fellow, University of New South Wales

Dr Mark Milic PhD  
Thesis: Psychosemantics: Communication As Psychological Action  
Consultant Psychologist, Psychways Pty Ltd

Dr Nan Xu PhD  
Thesis: Tones And Vowels In Cantonese Infant Directed Speech - Hyperarticulation During The First 12 Months Of Infancy  
Postdoctoral Fellow, MARCS Labs, University of Western Sydney

Dr Robert Sazdov PhD  
Thesis: Compositional Approaches In Multi-Channel Electroacoustic Music Based On Ecologically Valid Perceptual Experiments  
Lecturer, Centre for Computational Musicology and Computer Music University of Limerick

Sonja Wilke MA(Hons)  
Thesis: Auditory Manipulation Of Visual Perception In London, applying for UK-based doctoral programs in music and IT

Dr Tim Byron PhD  
Thesis: Music Processing Of Pitch And Temporal Information In Relational Memory For Melodies  
Moved to Queensland, writing, singing and seeking postdoctoral appointment in music psychology

Dr Elizabeth Beach PhD  
Thesis: The Effect of Spectral Tilt on Infants’ Speech Perception: Implications for Infants with Hearing Loss  
Research Psychologist, National Acoustic Laboratories

Dr Jemma Harris PhD  
Research Associate, Macquarie University

Dr Mark Antoniou PhD  
Thesis: One Head, Two Languages: Speech Production and Perception in Greek-English Bilinguals  
Postdoctoral Fellow, Northwestern University, Chicago

Dr Christa Lam-Cassettari PhD  
Thesis: The Influence of Infant Hearing Loss on Mother-Infant Interaction: Implications for Infant-Directed Speech, Responsiveness and Vocabulary Development  
Postdoctoral Fellow, National Biomedical Research Unit, Nottingham

Dr Shauna Halovic PhD  
Thesis: Perception of Emotions through the KInematics of Gait and the Influence of Adaptation Aftereffects  
Research Officer and Tutor, University of Western Sydney

Dr Khazriyati Salehuddin PhD  
Thesis: The Acquisition of Numeral Classifiers by Malay Children  
Lecturer, School of Language Studies, University Kebangsaan, Malaysia

Dr Ben Morrison PhD  
Thesis: Profiling the Profiler: Exploring the Role of Cues in the Development of Expertise within the Domain of Offender Profiling  
NSW Police Force, as an essential precursor to a position in Forensic Psychology

Dr Benjawan Kasisopa PhD  
Thesis: Reading without Spaces between Words: Eye Movements in Reading Thai  
Research Officer, MARCS Labs, University of Western Sydney

Dr Damien Smith PhD  
Thesis: Lexical Tone and Perceptual Training: Implications for Children with Cochlear Implants  
Medical Student, University of Sydney

Dr Nathan Perry PhD  
Thesis: A Reduced Processing Approach to Decision Support for Improving the Decisions of Less-Experienced Incident Commanders  
Lecturer, School of Psychology, University of Western Sydney

Dr Natalie Morrison PhD  
Masters of Clinical Psychology student, University of New South Wales

Dr Lidija Krebs-Lazendic PhD  
Thesis: Early Vs. Late Serbian-English Bilinguals’ Responses To Australian English Vowels  
Postdoctoral Fellow, University of New South Wales

Dr Damien Smith PhD  
Thesis: Lexical Tone and Perceptual Training: Implications for Children with Cochlear Implants  
Medical Student, University of Sydney
